

Cari amanti del vino, dear wine lovers

This wine list reflects countless personal visits to wine cellars and vineyards. Enthusiasm, love for the profession and wine culture as well as constant knowledge expansion form an ensemble that distinguishes this selective Ticino - Italy offer with diversity. In particular, we have integrated Alto Piemonte and Val Aosta into our wine list. Two regions that have not yet been properly discovered and produce an incredible variety of wines!

Our wish is that these efforts will be rewarded with your appreciation and enthusiasm for this or that wine or even for a trouvaille. You will find that we keep the quality high and the price fair. It is a real concern of ours to bring you closer to the diversity of Ticino and Northern Italian wines and their winemakers, because Ticino is more than Merlot alone and in Italy there is not only Sangiovese and Nebbiolo.

We are very pleased to share this passion with you. Salute!

THE DIVERSITY OF TICINO WINES

The two main wine-growing regions, **Sopra Ceneri** with the sponda
destra (right side of the valley) and Sotto Ceneri, surprise again and
again with fantastic assemblages and single-varietal wines.

In **Sopra Ceneri**, the wines are rather sparse, with corners and edges
like the mountains of the Leventina or the steep rock faces in the valleys
of Locarnese.

In **Sotto Ceneri** they tend to be more substantial, complex and sweet,
as are the soils of the growing areas.

It is this different topography that makes the wines of the
Ticino so varied and full of character,
because the wine is made in the vineyard.

WINE SELECTION FROM FAMILY HUBER, MONTEGGIO

The vineyards and winery of Anne-Marie and Dani Huber's family are located in Monteggio, in the central Tresa Valley. The winery is located in a renovated 17th century Malcantonese house, where the Huber family also lives. Jonas, the son, has also joined the business a few years ago. Together with two employees, they cultivate the vineyards on mostly south-facing steep slopes between 300-450 m above sea level and a total of 6.8 ha of land.

The Huber family is considered one of the best winegrowers in Switzerland.

Their "Montagna Magica" even made it to second place behind "Château Petrus". The Huber family is always focused on quality in other ways, too, and shows this with other fantastic wines such as "Volpe alata" or "Costera Riserva".

For some years now, son Jonas has been running the winery with the help of his family and has successfully followed in his father's footsteps.

WINE SELECTION FROM CHRISTIAN ZÜNDEL, BERIDE

In 1976, Christian Zündel, a young man from the city of Zurich, came to Malcantone as part of a project where he did his work as a soil scientist.

At first, he planned raspberry and asparagus plantations. However, he soon realised that growing vines was much more suitable. Thus he laid the foundation for his wine production. Together with his fellow student

Adrian Kauffmann, he began to press Merlot grapes. In 1985, he presented his first vintage, which he still pressed with his friend Werner Stucky. This is how he developed from an individualist Zündel into a winemaker.

From then on, he pressed his own grapes and, especially in the 1990s, caused a sensation far beyond Ticino with his "Orizzonte". He has always tried to exert a minimum of influence on the product and since 2003 has turned his farm over to the biodynamic method.

Christian Zündel has had a strong influence on viticulture in Ticino. Together with Werner Stucky and Adrian Kauffmann, he has been part of the avant-garde in modern Ticino viticulture since the 1980s. For some time now, his daughter Mira has been running the winery.

Orizzonte vino da tavola della Svizzera Italiana

The flagship wine of Christian Zündel! Made from 96% Merlot and 4% Cabernet Sauvignon. The vines grow in the Castelrotto vineyard near Villa Orizzonte at about 350-450 m above sea level.

WINE SELECTION FROM STUCKY HÜGIN, RIVERA

Werner Stucky, a pioneer of the Swiss-German winegrowing colony in Ticino, self-critical, always ready with advice for all like-minded people.

He cultivates his vines in the somewhat harsher climate of the Sopra Ceneri in partly very steep terrain. His wines speak their own language and are unrivalled in class. It is a pity that many people have not yet noticed that his wines are something very special - they have the terroir and a class in them that is not easily found.

Thank you Werner Stucky!

Langhe Nebbiolo DOC 2021 Claré J. C. 75cl **55.-**

Claré stays for Nebbiolo as it has been made in the 17th century, fruity, refreshing and a bit carbonated. Scent of cherry, juicy raspberry and delicate sage herbal spices. In the mouth it develops a combination of infinite juiciness and lots of round tannins. A real great wine, but – attention – only for wine lovers
